“Photography for me is not looking, it’s feeling. If you can’t feel what you’re looking at, then you’re never going to get others to feel anything when they look at your pictures.”

Images from the Web?? Or any works of others??

New members have asked whether everything in an image submitted for competition must be their own work, or can something from another source be added.

The answer is that all work submitted must be your own not just the final result.

Below is a quote from a PSA sanctioned competition.

“All imagery **MUST** be the total and exclusive work of the submitting author and may not include any element that was originated by or is the copyright of other photographers.”
